

Pataliputra Tech Summit 2024

Background

Objectives

The main objective of the “Pataliputra Tech summit 2025” is to become international stage for serious technical discussions, deliberation and demonstration of new technology in India. It will provide space to exchange ideas, perspectives and solutions on the future global challenges. This global tech summit will be organized on four verticals, viz International conference, exhibition, Special programs on neighboring countries and business opportunities of B2B market places.

This tech summit will have **International Conference on Science & Technology** on following fields

- Electronics System Design & Manufacturing (ESDM) and IT
- Biotechnology & Bioinformatics
- Nanotechnology and Nonmaterial research
- Artificial Intelligence and Neural Networks
- Robotics Automation and Mechatronics
- Drone Technology
- Space Technology
- Food processing Technology
- Horticulture and Floriculture
- Agri-technology and agri-forestry
- VLSI and Microelectronics
- Embedded Controllers and Mobile communication
- Health care and community Health
- Quantum computing and Photonics
- Power electronics and Solar Technology
- Internet of Things based smart homes and smart Health
- Metal Extraction and Recycling technology

The conference will have opportunity to interact with more than 1000 participants and 100 speakers including technical business leaders, and Policy makers, start up founders, Innovators, scientist through panel discussion, plenary talks, subject wise keynotes, and research paper presentation by academia and industry. The abstracts in all fields of science & technology will be invited from academicians, researchers and engineering & Technology professionals. The selected paper will be given chance for presentation during the conference and also they will be given opportunity to write full paper for our “**Journal Manthan, An International Journals on scientific innovation & research**”. The best paper and presentation will be awarded by the the society.

The **Exhibition at PTS 2025** will be the showcase of cutting-edge innovation, where technology meets possibility. The exhibition will bring global industry leaders, tech innovators, startups, and enterprises together to present the latest advancements shaping the future of various sectors. Spanning diverse industries through multiple exclusive sectoral pavilions the PTS Exhibition is a hub of creativity and innovation.

- It offers a unique platform for businesses to demonstrate their solutions, engage with potential clients and partners, and explore future trends in technology.
- From groundbreaking startups to established global players, the exhibition hall is packed with innovations that promise to transform industries and revolutionize the way we live and work.

- Whether you're looking to discover the next big thing, forge valuable partnerships, or showcase your products to an engaged, tech-savvy audience, the PTS 2025 Exhibition is where the future unfolds.

Special Programs & Conclave

In addition to above mentioned, PTS will organize following programs in association with various foreign embassy and other stake holders.

- Indo Nepal Development Conclave
- Indo-Bangladesh Development Conclave
- Indo Srilanka Development Conclave
- Indo-Myanmar Development Conclave
- Poster Presentation for Researchers
- R&D Lab to Land
- Semiconductor R&D and Fabrication conclave
- Start up & MSME conclave
- Higher Education and R&D conclave
- Awards
 1. Dr. Kalam Award for Scientific Innovation
 2. Prof. Yashpal Award for Science communication
 3. Best Start up Awards
 4. Best Manufacturer Awards
 5. Best Semiconductor company Award
 6. Life time Achievement Awards

B2B Market Place:

B2B market place will be created for electrical and electronics items, mechatronics & Robotics, Industrial equipments, Medical electronics Devices, beauty & personal care, hardware items, computer and mobile devices etc.

Organising Body:

The programme will be organized by **B.Brains Development Society, commonly known as BiharBrains** in association with Smartway Electronics, Bihar Semiconductor Association, and other stake holders. The main organizers have already organized 9th series of Bihar Science conferences, an international conference on science & technology on the pattern of Indian Science Congress.

The program will also be supported by Dept. of Industry, govt. of Bihar, Dept. of IT, Govt of Bihar, BIRAC, Dept of Biotechnology, Govt. of India, Electronics and Semiconductor associations, Software Technology Parks of India.

The technical co-sponsors of the event will be IIT, Patna, Nalanda International University, NIT, BIT, Aryabhata Knowledge University, Bihar Health Science University, Bihar Engineering University, Patna University, Bihar Agriculture University and other universities and R&D institutions.

Event Schedule: The tech summit will be organized tentatively **between 17th April to 19th April 2025 at Gyan Bhawan Patna.**
